About me

I'm Fábio Gouveia, a multidisciplinary designer currently based in Portugal. Focusing on web design, UI/UX, 3D modelling, and programming, I hold a Bachelor's and Master's degree in Design and Multimedia from the University of Coimbra.

I possess a robust understanding of design fundamentals and have collaborated with teams to conceptualize and execute graphic design projects, and web development initiatives, as well as 3D implementations and animations, showcasing my versatile skill set and ability to contribute effectively to a wide range of creative endeavors.
